

ATMO ACCESS
Access to Atmospheric Research Facilities

Stakeholder Workshop

Wednesday 27 October 2021

OVERVIEW

The aim of this half-day workshop is to provide an opportunity for operators and potential users of research facilities in ATMO-ACCESS to contribute to the development of new transnational access (TNA) pilot studies for atmospheric research infrastructures.

The workshop is a part of ACTRIS Week 2021.

WHO IS IT FOR?

- Organisations, companies and researchers that generate and utilise data on atmospheric composition
- Private sector companies supporting innovations in scientific instruments and sensors for atmospheric measurements, data services and other technologies in atmospheric science
- Operators of atmospheric Research Infrastructures (RIs) in Europe
- Industrial end-users looking for new technologies and services
- Public authorities and environment agencies interested in enhancing their air quality monitoring capacities

SCHEDULE (Central European Time)

13:00-13:20	Welcome and Introduction to ATMO-ACCESS (Project Coordination)
13:20-13:45	New Transnational Access Modalities in ATMO-ACCESS (John Wenger)
13:45-14:15	TNA Pilots for International Stakeholders (Doina Nicolae)
14:15-14:45	Break
14:45-15:15	TNA Pilots for Innovators in Technology (Léo Rivier)
15:15-15:45	TNA Pilots for Public Authorities (Eleni Athanasopoulou)
15:45-16:15	Open discussion, concluding remarks and follow up plans

OUTCOME

The discussions and survey results generated during the workshop will be used to inform the development of TNA pilot studies in the three areas. Further communications and meetings will be conducted to ensure participation of all stakeholders in the co-design of the TNA pilots.
