

Labelling status

Labelling status - overview

Currently

- 45 NFs within CiGas
- 10 atmospheric simulation chambers
- 1 laboratory platform
- 4 mobile platforms
- 30 observational platforms

UK and Greece not (yet) part of ACTRIS (3+1)

- Auchencorth Moss, Roland von Glasow Air-Sea-Ice Chamber, Athens Supersite NOA, PANGEA

• Observational platforms

Labelling step 1a complete (4)

- SMEAR II, Jungfraujoch, Pallas, SIRTAs

not yet ready (12+1)

- Hyltemossa, Norunda, Svartberget, University Innsbruck, Zeppelin, Trollhaugen, SMEAR I + III, P2OA, EC Atmospheric Observatory, Lecce, CABA UW, Taunus

Labelling process started (10)

9 close to finalisation of step 1a

Labelling status – observational platforms

National facility	Status	remark
Melpitz	started	Questionnaire sent out
Schmücke	started	Report to be sent to NF
Waldhof	started	Report to be sent to NF
Site d'observation atmosphériques Puy de Dôme/ Opme/Cézeaux	started	Report to be sent to NF
Vielsalm	started	Status to be discussed
Beromünster	Started	Report to be sent to NF
Meteorological Observatory Hohenpeissenberg (DWD)	started	Report to be sent to NF
CMN-PV	started	Report to be sent to NF
National Atmospheric Observatory Kosetice	started	Report to be sent to NF
Cape Verde Atmospheric Observatory	started	Report to be sent to NF

Labelling – plan 2025

Next stations to start the labelling process –

readiness to be requested again

- P2OA
- Norunda
- Svartberget
- Taunus
- Lecce

March 2025

- CABA UW
- SMEAR III

Aug / Sept 2025

Not yet clear when they will be ready for step 1a

- SMEAR I
- European Commission Atmospheric Observatory
- Trollhaugen
- Zeppelin
- Hyltemossa
